# Creo: Introduction to Creo Schematics for Cabling

**Find a class**

## Course type

Class with hands-on practice

## Duration

3 Hours

## Product

Creo Parametric 11.1

## Delivery method

Instructor-led

## Guidebook languages

English

## Course overview

Use Creo Schematics to create a wiring diagram from an existing catalog that can be used in a Creo Parametric Cabling model. Export logical data created in Creo Schematics to Creo Parametric Cabling to automatically route wiring.

This class does not cover the administrative tasks of creating catalog items.

## Prerequisites

Creo: Creating Harnesses and Routing Cables 1

## Audience

Design Engineer

## Learning objectives

Explain the diagram types that can be created in Creo Schematics

Create a wiring diagram from an existing catalog

Export logical data from Creo Schematics and import the data into a Creo Parametric Cabling model

Automatically route wiring in a Creo Parametric Cabling model
