- Self-Guided

CONTENT LANGUAGES

English

[日本語](#)

COURSE OVERVIEW

Explore how product life cycle management (PLM) organizes and accesses the data created during product development. Learn to navigate the Windchill user interface (UI) and perform common tasks. Data management techniques, Windchill tables, and search methods will provide the foundation you need to learn more advanced Windchill functions.

PREREQUISITES

None

LEARNING OBJECTIVES

- Describe the PLM scope
- Identify Windchill concepts and capabilities
- Explore the Windchill user interface
- Use the Windchill search capabilities
- Use and customize the View Information user interface
- Investigate tables and table views
